LITERATURE AND MEDIA: Students will use literature and media to develop an understanding of people, societies, and the self. Grade 3 4. Make informed judgments about the purpose of media productions. Grade 6 3. Compare and contrast print and non-print versions of a literary work.	5-8: interpret and report social studies information from diverse sources (people, media, technology, computers, and libraries) 9-12: analyze the reliability and validity of social studies information sources; evaluate and choose the most persuasive social studies concepts and vocabulary to explore issues and problems	Health is influenced by a variety of factors that co-exist within society. These include the cultural context as well as media and technology. A critical thinker and problem solver is able to analyze, evaluate and interpret the influence of these factors on health. The health-literate, responsible and productive citizen draws upon the contributions of culture, media, and technology to strengthen individual, family and community health. K-4: explain how media influence thoughts, feelings, and health behaviors 5-8: analyze how messages from media and other sources influence health behavior 9-12: evaluate the effect of media and other factors on personal, family, peer, and community health
